MARKET QUOTATIONS REPORTS FROM ALL GREAT BUSINESS

CENTRES OF THE WORLD.

Prices of Money, Bonds, Stocks, Grain, Tobacco, Cotton, &c., and the Westher Indications.

Washington, D. C., August 29 .-FAIR Forecast for Virginia: Fair weather; warmer in northern portion; southwest winds. North Carolina: Fair weather, except showers on the coast; south winds.

THE WEATHER IN RICHMOND YESTERDAY was pleasant, though partly cloudy. At midnight it was very foggy, and the skies were overcast.

NEW YORK STOCK MARKET. NEW YORK, August 29.-There was a fair degree of activity at the Stock Exchange to-day, but the increase in business was at the expense of values. The temper of speculation was so bearish that than a momentary effect on values. These but certain operators who concluded their bull campaign in Sugar a few days ago pounced upon that stock and knocked the price down from 110% to 107%. Incidentally, they raided other stocks which haply, they raided other stocks which happened to be unsupported. Thus General Electric fell 2%, to 25%; Burlington and Quincy 1%, to 75%; Chicago Gas 1½, to 74½; St. Paul 1½, to 64%; Rock Island 1½, to 66%; Manhattan 2, to 117½; Missouri Pacific 1½, to 23½; Northern Pacific, preferred, 1, to 18½, the Missouri Pacific 1½, to 23½; Northern Pacific, preferred, 1, to 18½, United States Cordage 1½, to 18½, and Western Union ¾, to 85½. The decline caught many stop orders, and the bears, joining hands with the soidout buils, made the market look quite weak for a time. The one thing harped upon by those engaged on the bear side was the attitude of those identified with the administration toward tariff reform. Their statements that the tariff battle has just begun created fears that the business interests of the country will be kept in tuspense some months longer, and that the expected benefits to the railroads from the action of Congress will be deferred. These expressions serve the bears temporarily, for they are made public in order to intimidate weak holders of securities.

The short interest was materially increased to-day, especially in the Grangers. Toward the close General Electric railled to 40½, and the rest of the list left off at a recovery of ½ to ½ from the lowest. The tone was steady in the final dealings. The bond market was weak. The sales of listed stocks aggregated 150,000 shares; of unlisted, 25,000. ned to be unsupported. Thus Genera
